

SUNDEEP GIRN

Product Designer | UI / UX Designer

Hi, my name is Sunny, I have a background in architecture and have been working in this field for the past 9 years. However, I am now looking for a career change to a UI / UX designer.

I take great pride in what I do and have a creative yet open minded approach to work. My goal now is to advance my design, problem solving and user experience skills, and believe my motivation and passion can help me seek new challenges.

HOBBIES & INTERESTS

Field hockey - I have been playing hockey since I was 6 years old, and continue to play weekly for my local club.

Cooking - I enjoy learning new skills and trying new things, so finding new recipe's and cooking for my family gives me a sense of pride and satisfaction.

Art - Living in London there is so much accessibility to museums and exhibitions which I try to take advantage of.

Gym - Goes hand in hand with hockey, a tough sport which requires me to stay fit.

Hand Drawing - Similar to the rest of my hobbies, drawing gives me a sense of escape from work to express myself.

EXPERIENCE

Jan 2022 | Fluent Architectural Design Services | SUNBURY , UK

Present | Architectural Designer

- Used VR to create walkthroughs and 3D panoramic renders for clients to experience through a VR headset
- Took the lead on client calls and screenshares on a weekly basis to help define project requirements
- Consulted with company management to review current processes and provide solutions to solve user needs as well as improve the speed and efficiency of operations

Feb 2020 | Resi | Brixton, UK

Dec 2021 | Architectural Designer

- Implemented a new software into the company, and tested out the software with real time projects, then creating a template to roll out to the entire company
- Prepared planning and research documents, and submitted planning applications and relevant documents to the respective councils. Liaise with planning officers and making design iterations when requested
- Organised clients needs and prioritised expectations depending on time constraints and work colleagues requiring my software expertise

Sep 2017 | Fluent Architectural Design Services | SUNBURY, UK

Feb 2020 | Architectural Designer

- Coordinated with clients to create inspirational designs with functionality for their property
- Managed site visits and surveyed properties / large scale buildings
- Guided offshore teams where work has been outsourced, to make sure drawings are to an acceptable standard

Sep 2015 | Fluent Architectural Design Services | SUNBURY, UK

Sep 2017 | Junior Architectural Technician

- Prepared architectural drawings for planning applications
- Produced Location & Site Plans, Existing & Proposed Floor Plans and Elevations
